EDUCATION AND TRAINING

Quaid-e-Awam University of Engineering Science & Technology **Nov 2023 – Ongoing**
Bachelor of Science in Computer Science *Nawabshah, Pakistan*

National Freelance Training Program, Punjab IT Board **Mar 2024 – Jul 2024**
Technical Track Graduate *QUEST, Nawabshah, Pakistan*

WORK EXPERIENCE

Sindh Bank Limited, Information Technology Division **June 2026 – July 2026**
Software Engineering Intern *Karachi, Pakistan*

- Designed and developed an enterprise-grade Project Management System (PMS) web application using ASP.NET Core MVC and C# to streamline internal task assignment, milestone tracking, and cross-departmental collaboration
- Engineered a secure relational database layer with SQL Server and Entity Framework Core, writing complex LINQ queries to ensure data normalization across users, roles, tasks, and audit logs
- Implemented standard software design principles, using the Repository and Service Patterns to separate business logic from data layers, maintaining clean and scalable architecture
- Integrated ASP.NET Core Identity for robust Role-Based Authorization Controls (RBAC), securing workflows for Super Admins, Managers, and Team Members alongside anti-CSRF protections
- Built real-time system alerts using SignalR for deadlines and task changes, alongside dynamic performance dashboards

PROJECTS

BankITDesk: Complaint Management System **June 2026**
Full-Stack Project | ASP.NET, C#, EF Core, SQL Server

- Full-stack web application with secure ASP.NET Core Identity authentication and role-based access
- Normalized SQL Server schema tracking users, complaints, categories, and status history
- Real-time complaint status dashboards and admin reporting views
- Built with Repository/Service Pattern architecture for clean separation of concerns

LoanTrack Pro: Bank Loan Management System **July 2026**
Full-Stack Project | ASP.NET Core MVC, C#, EF Core, SQL Server

- Designed a multi-role loan origination and approval workflow (Applicant, Loan Officer, Branch Manager) with ASP.NET Core Identity-based RBAC
- Built approval-chain workflows with status tracking (Pending → Under Review → Approved/Rejected) and audit logging
- Generated downloadable loan agreement and repayment schedule PDFs using QuestPDF

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals | *Microsoft Certifications* | [View](#) **2026**

Secure & Scalable API Development with .NET | *Microsoft / Coursera* | [View](#) **2026**

Meta Front-End Developer Professional Certificate | *Meta / Coursera* | [View](#) **2025**

TECHNICAL SKILLS

Frontend: HTML5/CSS3, JavaScript, Bootstrap 5, Chart.js, Responsive Design

Backend & Frameworks: ASP.NET Core MVC (.NET 8/9), C#, Entity Framework Core, REST APIs, Service/Repository Patterns

Database & Reporting: SQL Server, DB Design, LINQ, RDLC, QuestPDF

Security & Tools: ASP.NET Core Identity (RBAC), JWT, Git, GitHub, Visual Studio 2022, SignalR, Docker

Languages: English (C2 Proficient), Urdu (Native)
